GLOVES FOR ISOLATORS AND GLOVEBOXES

Authorized Distributor of

The new gloves for isolators, gloveboxes and RABS ensure a completely sterile work environment and protect the health of operators. The various combinations of materials, lengths and sizes adapt to all needs.

GSB SERIES

- ◆ FDA-compliant antistatic compound with excellent gas barrier properties
- ◆ High chemical resistance to aggressive substances and toxins
- ◆ High tactile sensitivity and elasticity for precision handling
- ◆ Compatible with VHP, peracetic acid and alcohols; suitable for standard cleaning
- ◆ Applications: electronics, semiconductors, 3D printing, research

- ◆ Thickness 0,2 mm
- ◆ Highly sensitive
- ◆ Best dexterity

GSC SERIES

- ◆ CSM compound with excellent resistance to aging (oxygen, ozone, UV) and to acids and alkalis
- ◆ Broad sterilization compatibility: VHP (6% and 35%), peracetic acid (3%), gamma irradiation, autoclave 121 °C
- ◆ Certified protection: ISO 374-5, ISO 374-1 Type B, EN 388, EN 421
- ◆ Applications: pharmaceutical, life sciences, chemical and research sectors

GSE SERIES

- ◆ Electrically dissipative, FDA-compliant EPDM compound (EN 16350)
- ◆ High resistance to disinfectants, alcohols, acids and alkalis; thermal stability up to 130 °C
- ◆ Compatible with autoclave (121 °C), gamma irradiation, VHP and peracetic acid
- ◆ Applications: pharmaceutical industry, life sciences, biology and research

- ◆ Two layer glove
- ◆ Suitable for steam sterilization
- ◆ Easy visual inspection

BE PROTECTED. GLOVES TO MATCH YOUR NEEDS.

PHARMA-GRADE, AUDIT-READY, CUSTOM-MADE GLOVES, MANUFACTURED IN GERMANY WITH SHORT LEAD TIMES

WHY CHOOSING THOSE GLOVES

- 01 AUDIT-FRIENDLY:** Production facility located in Germany, allowing for simplified audit procedures.
- 02 FULL COMPLIANCE:** Meeting all GMP, pharmaceutical, and cleanroom requirements.
- 03 TRUE CUSTOMIZATION:** Real tailor-made solutions available for all glove types.
- 04 4-WEEK LEAD TIME:** For rapid supply chain reliability.
- 05 PREMIUM QUALITY:** High-quality standards resulting in fewer deviations, reduced risks, and fewer CAPAs.
- 06 DOUBLE-LAYER AVAILABILITY:** Available in dual-color (black/white) as per EU GMP Annex 1 (Contamination Control Strategy) requirements; double-layered gloves (black interior/white exterior) for easier visual inspection.
- 07 HIGH PERFORMANCE:** Engineered for excellence in autoclave sterilization, VHP cycles, and Gamma radiation sterilization.
- 08 CERTIFIED STANDARDS:** AL Glove Systems gloves comply with PPE Regulation (EU) 2016/425 and ISO 374-1/ISO 374-5 standards, with type testing conducted by accredited bodies. Materials are compliant with the FDA positive list according to CFR 21 177.2600.

OPTIONAL SERVICES AVAILABLE

QSGroup provides advanced optional services designed to enhance cleanliness, safety and performance in critical cleanroom and controlled environments

WASHED, STERILISED & DOUBLE BAGGING OPTION

For immediate cleanroom use.

PA/PE DOUBLE BAGGING

Protective packaging for safe transport and handling.

ADDITIONAL WASHING PROCESS

To remove talcum powder residues.

GAMMA STERILISATION

For high sterility assurance and contamination control.

CLEANROOM DECONTAMINATION

Supporting the highest cleanroom standards.

CUSTOM CONFIGURATION — AVAILABLE

**QSGROUP GLOVE
CONFIGURATION**

QSGroup supports a high level of customization to meet specific application and process requirements. Through a dedicated online configurator, gloves can be defined according to individual needs.

Scan the QR code to explore configuration possibilities and identify the most suitable solution for your application.
